MASONIC INSTITUTE FOR THE DEVELOPING BRAIN

INSTITUTE OF COMMUNITY INTEGRATION

UNIVERSITY OF MINNESOTA

Event description:

Please save the dates for a *Longitudinal ECHO series* (39 sessions) beginning Thursday, April 4th.

Hear from and share with U of M Hub Team members in Developmental-Behavioral Pediatrics, Child and Adolescent Psychiatry, Social Work, Early Childhood Intervention and Special Education. This series will allow for deeper dives into *specialty topic sprints* that span multiple sessions, as well as standalone didactics. This series is open to all, but is likely most relevant to primary care, pediatric, behavioral health, mental health, and educational providers. Social work CEUs will be available for this series. This series is free but registration is required. Please complete the [short registration survey](#) to access the meeting registration link.

Specialty Topic Sprints

1. Challenging Behavior & Positive Behavior Support
2. ADHD & Complex ADHD
3. Autism Screening, Referral, Evaluation, & Intervention
4. Anxiety & Mood Disorders
5. County Services Available
6. Special Education

This ECHO series is free but **registration** is required.
